## COMMERCIAL AND FINANCIAL

Heavy Receipts of New Wheat Had Much Influence.

CORN WAS QUITE SLOW AND WEAK

In Oats There Was a Fairly Good Demand and a Slightly Better Feeling-Sharp Decline in Provisions.

CHICAGO, July 10.-Heavy receipts of new wheat, which is beginning to come on the market, together with the political situation, made a rather weak wheat mar ket today and September closed %e lower. Corn lost the. Other markets acted inde-pendently. Oats and provisions both showed

In wheat duliness was again the chief characteristic, very little interest being manifested. The opening showed a connuation of yesterday's weakness, with the first price from 550 to 340 below the price at the close yesterday. A discouraging feature of the early news was the heavy receipts of spring wheat, 153 of the total receipts of 235 cars being new red win ter. September opened at from 56% to 56% and after some considerable trading be tween that and 56c, the price went down to

and after some considerable trading between that and 56c, the price went down to 554c. But there was hardly any disposition to trade. There was some reaction during the last hour, mainly on covering by shorts, and by a report that 40,000 but of No. I northern spring had been taken for export; September sold up to from 554c to 553c, where it closed.

Corn was slow and weak on the heavy feeding in wheat, the excitement and duliness in the east, anticipated increase in receipts. The increase in castbound freight rates, however, exercised a steadying effect and prices changed. September opened a closed easy at the opening price.

In oats there was a fairly good demand and a slightly better feeling was noticeable, prices ruling firmer the greater part of the session. September opened a shade easier at 154c, touched from 155c to 154c and closed steady at 155c.

In provisions the sharp decline of the past two or three days encouraged a little more buying which stimulated a little advance in prices. Opening prices were unchanged, but under the improved demand soon advanced and closed steady; September pork closed loc higher at 36.60; September lard, 75c higher at \$3.575.

Estimates for Saturday: Wheat, 159 cars; corn, 530 cars; oats, 159 cars; hogs, 11,000 head.

HIDDS

The Shoe and Leather Review says the hide market rules very quiet and on the surface seems considerable weaker, but there is an undercurrent of strength. There are few if any eastern orders to buy and western tanners evince very slight interest, but the supplies are known to be limited. The country kill is small this year and although the tanners are more cautious and conservative than usual the hide situation retains an element of strength indeed, hide quotations are several points higher relatively than the leather that is made from them. Quotations:

HIDES No. 1 green hides, 4c; No. 2 green hides, 2½c; No. 1 green saited hides, 5½c; No. 2 lowell wilmington, Norfolk... HIDES AND TALLOW.

Indeed, hide quotations are several points higher relatively than the leather that is made from them. Quotations:

HIDES—No. 1 green hides, 4c: No. 2 green hides, 25c: No. 1 green salted hides, 55c: No. 2 green salted hides, 45c: No. 1 green salted hides, 55c: No. 2 green salted hides, 45c: No. 1 vent calf, 8 to 12 lbs., 6c: No. 2 veat calf, 8 to 15 lbs., 4c: No. 1 dry flint hides, 7g5c: No. 2 dry flint hides, 5g6c: No. 2 dry flint hides, 5g6c: No. 1 dry salted hides, 6c: part cured hides, 15c per lb. less than fully cured.

SHEEP FELTS—Green salted, each, 25g6c: green salted shearlings (short wooled early skins), No. 1, cach, i6c: dry shearlings (about wooled early skins), No. 1, cach, i6c: dry shearlings (about wooled early skins), No. 1, cach, 5c: dry flint Kansas and Nebraska butcher wool pelts, per lb. actual weight, 4g5c; dry flint Kansas and Nebraska Murrain wool pelts, per lb., actual weight, 3g4c; dry flint Colorado butcher wool pelts, per lb., actual weight, 3g4c; dry flint Colorado Murrain wool pelts, per lb., actual weight, 3g4c; feet cut off, as it is useless to pay freight on them.

TALLOW AND GREASE—Tallow, No. 1, 2½c;

weight, 394c; feet cut off, as it is useless to pay freight on them.

Chicago Convention Has a Bad Influence on the Country's Business.

WHEAT MARKET ALONE SHOWS A GAIN

Western Receipts Are Much Larger Than for the Same Week of Last Year, and Foreign Demand . Is Not Growing.

NEW YORK, July 10 .- R. G. Dun & Co.'s weekly review of trade which issues to-morrow will say: With a political conventich in progress directly antagonsing the position taken on the money question by the convention of last month it is natural that there has been uncertainty about the future to intensify duliness expected at

this season. The wheat market advanced a little, thile other speculative markets were stagant or slightly declined, but its small adance was mainly due to reports of foreign crop reports. There are many who believe that a decrease in the yield this year has been underestimated and part of the dispatches gathered by Dun's review last week tends to support that view, though practically all the returns from what are now the chief waeat growing states were cheering. Less favorable accounts appear this week from Minnesota and Dakota. It was wise on both sides to remember that in the spring wheat states, which have this year to make up for some loss elsewhere, the crop will not be out of danger for some weeks. Actual movements continue to indicate very large supplies in sight, the western receipts for the week having been 2,22,409 bushels, against 1,09,534 hushels last year, while the foreign demand does not at the cause very large Atlantic exports, which were for the week flour included, 1,29,736 bushels, against 1,24,651 last year. Corn and oats promise so well thus far that prices do not advance, although exceptionally low already, and some meats have made new records for cheapness. and part of the dispatches gathered by Dun's

ready, and some meats have made new records for cheapness.

Not much can be said of a market so flat as that of fron and steel products, but part of the inactivity is strictly seasonable, part is due to still unsettled questions about wages, and much more to a general disposition to defer orders until the future is cleared. Whether prices, for finished products are too high or not, they average relatively at least 10 per cent higher than prices of pix fron, which necessarily causes limetion when pig is going lower. Itemserner fell this week to \$12 at l'ithburg, and grey forge to \$10, but some contracts of importance have been placed. Quotations for finished products are not lower, but are some times cut.

WEEKLY CLEARING HOUSE TOTALS. Aggregate of Business Transacted by the Associated Banks. NEW YORK, July 10.—The following table, compiled by Bradstreet's shows the total elem-

ances at the principal cities and the percentages of increase or decrease, as compared with the corresponding week last year; PLACES. Clearings. [ Inc. | Dec. New York.

DOMINION OF CANADA. Totals .....

..... \$ 24,136,965 3.6 ....

Clearings at Bay City, Fall River, Akron, Springdeld, Canton, Sloux Falls, Hastings, Chatanooga, Fargo, Nashville and Galveston not included in the table. MANY CAUSES RESTRICT BUSINESS.

Midsummer Duliness Emphasized NEW YORK, July 19.—Bradstreet's tomorrow will say: The usual midsummer duliness in general merchandise markets has been emphasized by unfavorable weather, by uneasiness at the attitude of the Chicago platform toward the finances of the country, and by the con-tinued conservatism with which merchants continued conservatism with which merchants continue to supply their wants. The volume of business appears to be smaller than last week. Mercantile collections are more unsatisfactory and there is a disposition among bobbers to look more closely after credits. Weel is still further depressed, with not enough business to establish quotations. There is no improvement in the demand for fall business in woolens. Netwithstanding rains in Texas, the cotton crop is suffering from the effects of drouth, while in South Carolina too much rain has failen for the good of the crop.

Pittsburg, St. Paul and Sayannah all report a smaller volume of business, and complaints are heard as to the prespect of the wheat crop on the Pacific coast. Among two dozen staple articles, the prices of which form a gauge of the general tendency of values, only one, print cloths, shows an advance over last week, coffee, petroleum, iron, steel, coal and lumber being conspinuous among those the prices for which are unchanged. The seneral tendency of the price movement, therefore, was downward, the fadvance in prints being the result of a shutdown in the east.

Exports of wheat, flour included as wheat, from both coasts of the United States and Montreal this week aggregate 2.167.000 bushels in the week aggregate in the like week of 1803.

The total number of bushels in the like week of 1803.

The total number of bushels failures throughout the United States at 219 this week a smaller would be the fourty of the price of 1803. tinue to supply their wants. The volume of

week of 1893.

The total number of business failures throughout the United States is 219 this week, a smaller number than in the corresponding period in each of the three preceding years. The total number of business failures reported from the Dominion of Canada is 33 this week, against 25 last week, 30 in the week one year ago, and 34 two yars ago.

TRADING IN STOCKS RESTRICTED.

London Has Not Been an Active Factor on Wall Street This Week, NEW YORK, July 10.—Hradatreet's review of the New York stock market tomorrow will narket during the present week. Some dispo-ition was shown by its representatives here o renew their purchases when the market ex-

prime investments, efferings of which are absorbed by dealers at tyncessions upon recent quotations for this whole of securities. The weakness of the exchange market and the absence of gold shipments are favorably regarded, but had little or no specialities effect, and the same thing may be said of the crop prospects, all reports as to the satuation in that respect being of a sufficiently, sanowaging character to have created under ordinary circumstances more or less buillab feeling. The actual trading in the market during the predent week has been on a restricted scale and in grafined mainly to small professional interests.

STOCKS AND BONDS.

Trading in Securities Was of Holiday
Proportions, All Day.
NEW YORK, July 10, The trading in stocks
today was of holiday preportions, ordinary market influences being a secondary consideration to the sensational political development at Chi-cago. The movement of prices was irregular, but an improved tone was imparted by higher prices for American securities in London and by the expectation of moderate buying orders for that account in this market. The industrial shares were the feature. St. Faul being the only railroad stock that could be termed active. The opening was dull and fractionally higher under the influence of the London advance, and some covering demand from the shorts. Sugar rose 3, per cent at the outset to 1683. In the ensuing dealings further general improvements occurred. Sugar advanced to 1683. Chicago this gained its per cent, Manhattan, the per cent. New Jersey Central, Louisville & Nashville and General Electric, i per cent, and Western Union, i per cent, and the grameors, 3, per cent.

The volume of business was not large, and about 11 o'clock the unexpected etungement of £26,000 in gold for export temorrow and rumors of impending large shipments resulted in a reactionary movement, in which the extreme losses were in Leather preferred, by per cent, and Chicago Gas, 14 per cent. The downward movement was of emply ing durabile & Nashville. The stocks named were bought on the favorable annual report of the first mentioned, published year-terday, and on the good showing of the St. Paul for the first week in July, reported today. Soon after midday a marked weakness developed in the industrials group. In the last hour the speculation came almost to a standstill. The chosing was irregular at slight gains generally. Business in railway bombs continued exceptionally dull, and a sagging tendency was noted. The important declines were 1817, 000, Governments were dull, but weak and lower; particularly the 4s, which sagged to 118. The sales were \$55,500. Silver certificates reacted to 69 on realizing orders. The dealings asgregated \$45,000.

The evening Post's London financial cablegram says: The stock markets were correspondingly dull. The report of the Union Bank of Australia is the six bused. It states that in consequence but an improved tone was imparted by higher prices for American securities in London and by

there was nothing doing, pending the settlement. The continental markets were correspondingly dull. The report of the Union Bank of Australia is just issued. It states that in consequence of the great deprecation in value of all classes of securities in Australia following upon the banking crisis in 1893, and of the great difficulty in arriving at those values with any degree of accuracy, it has been decided to ask permission of the shareholders to withdraw from the banks reserve funds in a contingent account a sum of £250,000 as a provision for contingencies. This sum is not asked for in connection with sum of £250,000 as a provision for confingencial This sum is not naked for in connection we realized lossen, but as the result of what is directors term a revaluation of the whole of the bank's business down to what the directors lieve to be values of the present day.

tirely of corn fed steers, and there were plenty of that kind of cattle in the yards and some of them right desirable stuff. The market on fat cattle was a little slow to open, the receipts being large enough so that buyers could afford to take their time in looking around. When the trade was active and the most of the cattle changed hands in reasonably good season. The most desirable cattle did not sell much different from yesterday, but the general tendency of the market was easier and in extreme cases 5610c lower. One bunch of handy little cattle sold up to \$4.19.

The offerings of butchers' stock were also liberal, there being twelve to lifteen loads of cows and heifers on sale, about half of them westerns. The demand was pretty fair and the most of them sold early. The market was weak to be lower.

The yards were full, but the demand was good and they sold freely at about steady prices. Representative sales:

In the Thickest of the Battle with the sustains the system it purifies and vitalizes FARAWAY NEW SOUTH WALES.

> A new diamond field has been discovered near Tamworth, New South Wales. Fresh finds of gold and silver continue to be reported from New South Wales. There are in New South Wales 378 works or the treatment of metals, employing

they are close," he cooly remarked once. Three hundred rebel natives were killed in the battle, though the British loss was only nineteen. There is fighting along the line In 1825 the inward and outward shipping of New South Wales was 47,247 tons; in 1895 it was 5,860,038 tons. The capital value of the rateable property

in New South Wales is estimated at nearly 190,000,000. The Australasian banks have in their strong rooms at the present time nearly (28,000,000 in gold awaiting investment. The total import and export trade of New South Wales in 1825 was estimated at £400,-000; in 1895 the value was £37,927,200.

Sydney, the metropolis of New South Wales, estimated by the annual value of its rateable property, has become the sec-ond city in the British empire. The flour mills of New South Wales in 1894 made 118 239 tons of flour from 5.680.272

bushels of wheat, of which 5,426,262 bushels were grown in the colony. In New South Wales during 1894 there were three cases of triplets, comprising four males and four females, one child being still-born. Twins numbered 365 cases, A hurry call was turned into the police station last night from the bottoms near station last night from the bottoms near natives of New South Wales, as were two station last night from the bottoms near Thirteenth and Charles. The officers found the families of Dick Beech and Fred Hires in an indiscriminate module with clubs and bricks flying in every direction. Mrs. Beech at length succumbed to a well directed blow from the crutch of Hires and Mrs. Hires signified that she had enough, when a flying brick cut a large gash in her forchead and placed her out of the state of the fathers, 170 were born in the countries. Of the fathers, 170 were born countries. in New South Wales, in Victoria 25, in the other Australian colonies 19, in England

REBHAUSEN—Annie, 6 o'clock a. m., July 10, 1896, aged 31 years, wife of G. L. Rebhausen, 1822 Clark street. Remains will leave residence at 2 o'clock Saturday ofternoon, July D, 1896, for interment at

and Wales 83, in Scotland, 18, in Ireland

A notice-able feature of this situation has been the in-activity of the investment market. Large cor-porations, as a rule, are entirely out of the bond market for the present, and speculative railway share issues have displayed a weak tendency. There is, however, a demand for BAR SHAWER-\$152d.
